

GREEN LIFESTYLE & DESIGN: SUSTAINABILITY IN BERLIN

[Link to meeting guide Berlin](#)

Discover Berlins' creative, ecological and sustainable lifestyle trends with a GoArt! insider.

We visit the newcomers of fashion in Mitte and Kreuzberg, visionaries, designers, architects and urban gardening projects which focus on sustainability and all its aspects in their productions. Likewise in Prenzlauer Berg – especially the area around Schönhauser Allee has changed drastically within the last years: Experience idyllic places like Kollwitzplatz with its little stores, cafés and green spaces where young families settle. On this tour we show you sustainable design and building projects – Berlins 'green' side – that will delight you.
