

PORCELAIN PAINTING WORKSHOP AT KPM BERLIN

[Link to meeting guide Berlin](#)

The Royal Porcelain Manufactory Berlin (Königliche Porzellan-Manufaktur / KPM Berlin) stands for top-quality porcelain and epoch-making design since 1763. It has maintained the craftsmanship of a creative manufactory that has been passed down through generations at its historic location - centrally located between the Victory Column and Charlottenburg Palace. During a workshop in our hands-on KPM Berlin workshop, you will experience your very special manufacturing moment. Become a manufacturer and learn everything about the production of our porcelain from the mass to the finished cup. We offer an exclusive program selection for groups of up to 100 people with different focuses.
