Inspired by Berlin. Connected worldwide.

Berlin - the city in which we live & work, pulsates and is constantly in motion - we move with it. Every day were struck by new impressions, which we then incorporate into our projects. We love to think up and implement the right idea to fit our clients needs. Be it an event for 20 or a convention for 10,000 participants. Whether invitation design, participant management, venue finding, hotel room reservations, catering, coordination of conference technology, transfer logistics, planning & implementation of team buildings, social programs, evening programs, gala evenings and entertainment or the search for speakers no detail is left to chance.
