

THE PROP HOUSE GMBH

[Link to meeting guide Berlin](#)

Prop House is a Berlin-based creative studio where imagination and functionality meet and lasting memories are created. We conceive, design and produce individual events and locations with fresh perspectives and attention to detail. From abandoned warehouses to shops in prime locations - we create places that represent the vision and style of our customers. Prop House takes care of all key elements of an event - from conception, design, event management, entertainment program, guest management and catering. We understand the "flow" of an event and ensure that aesthetics and functionality are combined.
