

CREATIVE SERVICE - FLORIAN DRUMMER

[Link to meeting guide Berlin](#)

We have been working for nearly 20 years (since 1996) in the event industry. Our team consists of experienced event specialists, advertising professionals, merchants, technicians and craftsmen. We are the agency that does not only think and design, but also build and execute. We are the creators. Whether interior design, stage design, event design, theme decorations, presentations and many other marketing activities – we will do it! From conception, through the construction and dismantling, through to on-site support. We assist you with our advice and deeds.
