

MAKING MOVIES - THE ORIGINAL AT FILMPARK BABELSBERG

[Link to meeting guide Berlin](#)

Under professional management you will learn what happens in front of and behind the scenes of a film production. Whether as an actor, director, cameraman or sound engineer - all functions are occupied by you and your completely own short film is created! Thematically, our artists offer many possibilities from coat and sword films to comedies. The shooting: The technical team is instructed, the actors move into position - sound: flap - and 'action'! After the film has been edited, it will be shown as a premiere. As teambuilding with integration of your company contents or just for fun - a unique experience!

Duration approx. 3-5 hours

"Big show and huge logistics behind the scenes"

"Not only in the (film) business it is necessary to make the impossible possible but also at this very event. Within one single day 650 actors are to be used to shoot a full feature film." (EventPartner 2.2008)
