

STREETART WORKSHOP

[Link to meeting guide Berlin](#)

The focus of our tour is the phenomenon of street art. We take you to fascinating rear courtyards, past former squats, to trendy galleries and show you Berlin's world famous street art on the way. In our graffiti workshops, you can even leave behind your own masterpiece individually or as a team.

Guided by professional artists, you will learn how to cut templates, choose the right materials and colours, and how to use different techniques. What does it feel like to become active as a sprayer? How does a spray can feel in your hand? How can you draw straight or round lines? How hard is it to write your own name on a wall?

In the end, you can try out your new skills on a canvas that you can take home afterwards. And who knows, maybe you'll even discover a little Banksy in you!
