

VIDEOTABLETOUR

[Link to meeting guide Berlin](#)

With the furnished iPads in tow, we take you to the most exciting places in the city. Appropriate videos and live commentary provide additional information about the sights we visit. What did the former no-man's land between the two sides of the Wall look like? What does the chancellor's cabinet table look like? These and other questions are answered by the videoTabletTour, one-of-a-kind in Europe.

Another option: explore the city in teams as part of a tablet scavenger hunt.
