

PAINTING THE WALL

[Link to meeting guide Berlin](#)

StreetArt in Berlin is inseparably connected with the Wall. Famous artists like Keith Haring left their mark for posterity on the longest canvas made of concrete in the world. The Wall is gone but the creativity is still here. Today, Berlin is the most important StreetArt Metropolis in Europe!

We are bringing back a piece of history and combining it with your creativity. We provide you with a piece of the Wall made of solid cardboard with a canvas overcoat. Under the guidance of our artists you will get to know various graffiti techniques. In groups you can compete for the best artistic engagement with the medium – the perfect Berlin-Teambuilding!
