Base Flying

... is the name of the unique adventure in Europe which those with enough courage can try at the Park Inn by Radisson Berlin Alexanderplatz. A special winch rappel system plunges the Base Flyer straight down at almost freefall speed alongside the hotel's outer façade – from a height of 125 meters. The Base Flyer comes to a complete, yet soft standstill just before landing.

Book Base Flying as an unforgettable activity and request a full package geared to your wishes.

More information is available at

www.jochen-schweizer.de or www.parkinn-berlin.de.

All Base Flying-related services are performed by Jochen Schweizer Events GmbH, with whom you will enter into a direct contract.

These services are not part of the services contractually owed by Park Inn by Radisson Berlin Alexanderplatz.
