Exemplarily course of the evening

Along with an aperitif or during dessert, the guests will receive exchange warranties (play money), which can be exchanged for chips at the tables or at the cashier. This way all participants start out with the same capital, making the games more suspenseful and opening the possibility for electing several winners at the end of the night. Symbolic prizes will be needed for the award ceremony.

To begin the casino event, red velvet blankets covering the tables will be ceremonially removed, commentated by the host or a facilitator. The guests may now exchange their play money for chips and begin playing. Our croupiers will explain the rules of the games.

A tastefully dressed young lady with a vendor's tray will mingle with your guests who can solve riddles in exchange for little prizes and sweets. She is a lovely addition to the event, as she relaxes the mood and is always remembered as an inventive interlude. Our vendor's tray girl may also be asked to distribute the exchange warranties in the beginning of the games.

When the games are over, the tables will be covered up and the winners will be announced once the chips are returned. Our own croupiers may hand over the prizes immediately or a list of the three best "hustlers" is compiled, who then receive their prizes in an exciting award ceremony.
