Long professional  
experience

As a provider of exclusive personal-transportation services, we work across Germany and the EU with our own fleet of vehicles and strictly with insured drivers.

In addition to work experience and knowledge of foreign languages, we place great emphasis on the continued education of our staff. In so doing, driver safety and first-aid courses are standard practice. Naturally, our drivers appear in business attire.

### Event service

Our experienced coordinators and dispatchers are your personal contacts at major events and are the important connections in assisting you in advance with your organizational needs, e.g. by providing detailed departure and arrival schedules. This work, which has been coordinated between drivers and schedulers for years, allows for smooth operations on location.

The real-time GPS tracking system can also be booked upon request at no additional cost.

### Personal service

Through our wealth of experience with government organizations, NGOs, and companies listed on the German stock exchange, we are always able to provide you with well-trained drivers for all your needs, whether temporary or ongoing. Our chauffeurs would be pleased to drive you in your own vehicle.

### Automobile marketing

You need more than a driver to market your new product. Precise training and special knowledge of the automotive market make our chauffeurs your first brand ambassadors before reaching the red carpet.
