Studio set-up

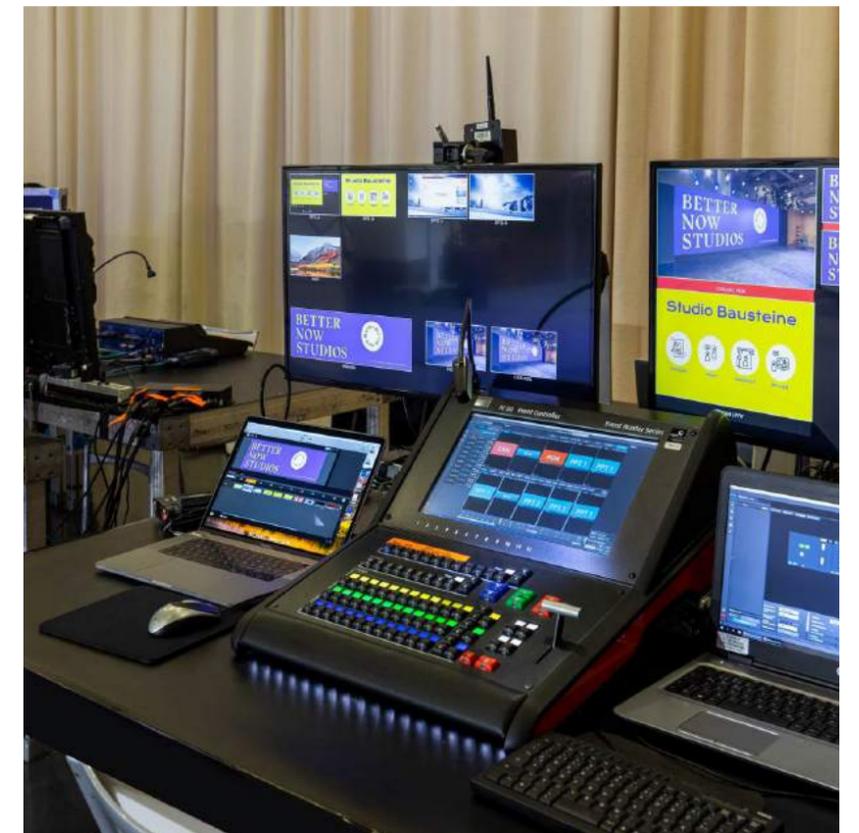

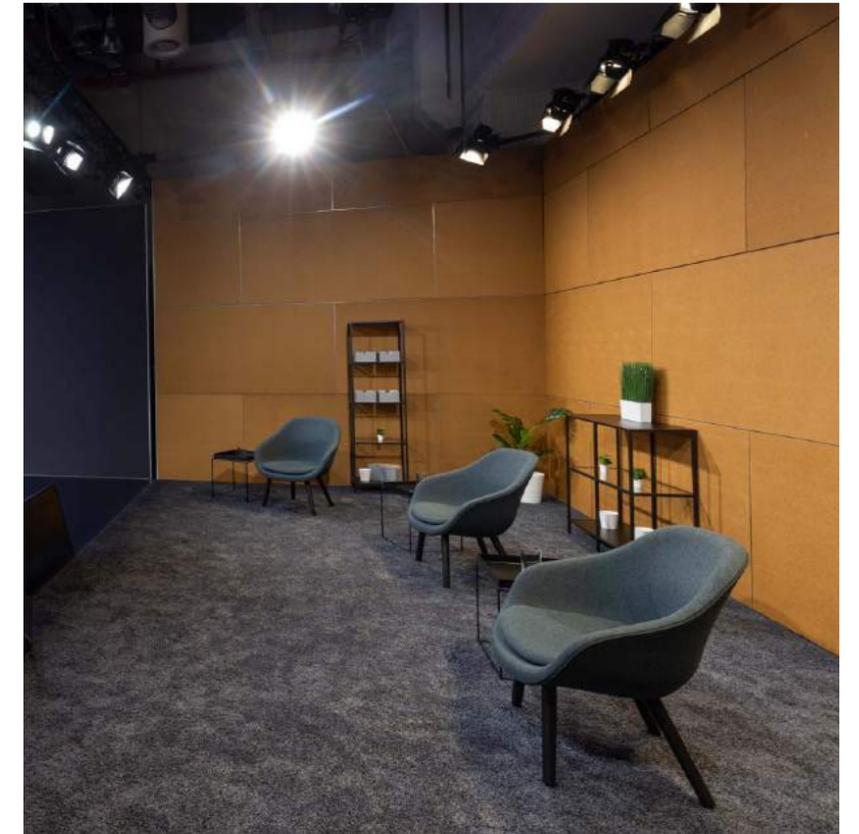

ready, set, go!

...with the starter package

- studio rental
- camera
- recording
- sound engineering
- wireless microphones
- lighting technology
- supervising staff

starter package - what is included?

● STUDIO RENTAL - SET 3

Set 3 is available with a 7 m wide and 3 m high back wall construction with a neutral light gray print (20% black).

● CAMERA TECHNOLOGY

A professional Full HD camera system with standard lens and accessories (Tally, RCP, CCU and cabling) is ready for use. The camera is assembled on a movable tripod connected to central data control.

● RECORDING

A recorder captures the audio and video signals for further use.

● MICROPHONE

There are 2 wireless microphones available, optionally designed as a handheld transmitter or lavalier microphone. 2 monitor speakers are included in Set 3 e.g. connecting participants to video conferences or transmitting video sound.

more details?

SOUND TECHNOLOGY

The sound engineering package enables the production of professional voice recordings, as well as the integration of music & sounds during live streams etc.

The sound mixer uses two studio-quality monitors to ensure optimal sound in the stream - which is processed on a digital mixing console.

An audio PC is available for adding music and voice recordings.

Communication within the control room as well as with the cameramen works discreetly via a wired intercom system and is barely noticeable.

LIGHTING TECHNOLOGY

The scene area in set 3 is illuminated by 4 LED lighting in combination with filtered levellenses, so that the presentor/guest can present themselves in the best light.

STAFF

The following team is planned for the supervision of the production and rehearsal days - eight hours per day:

- project management and planning
- sound engineering FoH
- image technology
- camera technology

Hybrid events

Vienna House Andel's Berlin takes online meetings to the next level with its holistic approach - 440 sqm studio area, LED stage back wall, three different set ups ready to use with state-of-the-art-technologies, separate rooms for make-up, catering and back office space plus fast internet connection combined the conveniences of these well-known hotel facilities.

The adjacently located largest conference room with its 1,500 sqm can accommodate hybrid events for up to 300 participants.

A comprehensive hygiene and safety concept dedicated to Vienna House Andel's Berlin event area was developed to ensure safe meetings. The latest addition is the implementation of Covid-19 rapid tests carried out by medical professionals onsite - now available for events.

Our strong team will make event planning even during these challenging times fun and will gladly help to plan your successful and Covid-19 compliant event.

- 1,500 sqm event space at „Rubin“ the largest conference area at Vienna House Andel's Berlin
- Space for 300 participants
- Special protection and hygiene concept
- Rapid antigene tests performed by healthcare professionals on site

Are you ready to run?
