

LED Mediawall

Visual experience

The permanently installed high-resolution LED media wall at AXICA is currently one of the largest in Berlin, covering an area of 48.2 m². It features a 20:9 format with dimensions of 10.2 x 4.72 meters.

With a 1.8 mm pixel pitch (5440 x 2520 pixels) and a brightness of 700 NITS, it ensures brilliant image quality even in daylight.

Bright colors, along with various branding and content options, transform presentations into an immersive visual experience.
