

WE ARE GREEN

SUPPORTING ELECTRO MOBILITY

- 10 in-house charging stations
- 16 TESLA Superchargers in front of our hotel

ENERGY GENERATION AND CONVERSION

- two combined heat and power plants
- a photovoltaic system
- wells for irrigation

ENERGY SAVING IN THE HOUSE

- energy-saving lamps
- rooms with water-saving fixtures
- efficient heating system
- waste disposal through an environmentally supportive disposal system
- option to skip room cleaning
- towels can be reused multiple times

IHG JOURNEY TO TOMORROW

- [Project JOURNEY TO TOMORROW](#)
- Climate neutrality by 2030
- [Green Engage Program](#) - Measure/regulate energy consumption

Sustainability at the Holiday Inn Berlin Airport Conference Centre

Our Commitment to Sustainability:

As part of our dedication to protecting the environment and making a positive social impact, the Holiday Inn Berlin Airport Conference Centre has implemented a series of initiatives to promote sustainability. We firmly believe that every business has a responsibility to foster sustainable practices to create a better future for generations to come.

OUR SUSTAINABILITY INITIATIVES INCLUDE

Energy Efficiency and Resource Conservation:

- Installation of energy-saving lighting systems and appliances to reduce energy consumption.

- Use of low-flow faucets and showerheads to conserve water resources.

- Implementation of recycling systems to minimize waste and conserve resources.

Sustainable Procurement:

- Preference for local and regional suppliers to reduce environmental impact from transportation and support local communities.

- Selection of eco-friendly and sustainable products, including organic cleaning agents and recyclable materials.

Eco-Friendly Practices:

- Promotion of public transportation and cycling by providing bike parking facilities and information on public transport.

- Reduction of single-use products and packaging by offering reusable and refillable alternatives.

Social Responsibility:

- Promotion of diversity and inclusion through employee training and creating a supportive work environment for everyone.

Your Role as a Guest:

As a valued guest at the Holiday Inn Conference Centre Berlin Airport, you can also help support our sustainability efforts:

Use water and energy sparingly by reusing towels and bed linens, turning off lights when leaving the room, and closing faucets while brushing your teeth.

Opt-out of room cleaning to save energy. As an IHG One Rewards Member, you can receive 500 bonus points for this.

Explore the area on foot, by bicycle, or using public transport and discover the region.

As a conference center, it is also important for us to minimize the environmental impact of events. We prefer low-packaging products in the meeting area. You can support us by trying to avoid unnecessary waste during, before, and after the event. Your participation in this eco-conscious approach is an important step toward promoting a more sustainable future.

Together for a Sustainable Future

We firmly believe that a sustainable future is possible through the collaboration of all stakeholders - guests, employees, and partners. We invite you to join us and be part of this movement for positive change.

Thank you for your support!

Note: Please be aware that our sustainability initiatives and policies are continuously evolving to promote best practices and meet current environmental standards.
