

Music Quiz

Interactive group format with headphones for conferences, corporate events and team building

The Music Quiz is a hosted, team-based game and knowledge format using wireless headphone technology. Across several rounds, teams compete in music-driven challenges. The combination of music, interaction and competitive elements strengthens communication and group dynamics – ideal as a team-building activity, break-out session or active programme module within conferences and events.

Key Facts:

- Format: Indoor or outdoor
- Duration: 45–90 minutes (customisable)
- Group size: 10–100 participants
- Languages: German / English
- Technical setup: Wireless headphone technology & show elements including lighting and FX

Booking Process & Customisation

1. Define Event Details

Together we coordinate:

- Date & time
- Group size and team structure
- Location (indoor/outdoor or mobile tour format)
- Language of hosting (DE/EN)
- Duration and number of rounds

2. Proposal & Confirmation

You receive a detailed, transparent proposal including a full service description. Upon approval, the booking is confirmed.

3. Implementation

On the event day, we handle setup, hosting and technical management. Participants experience a structured, music-hosted quiz format with clearly defined rounds and results.

Relevance for Companies & Operational Implementation

Why This Format Works for Corporate Events

- Strengthens team cohesion through playful competition
- Activates participants
- Suitable as a break-out or evening programme
- Creates strong shared memories
- Easy integration into conference and event agendas
- Internationally deliverable (DE/EN)

Planning & Operational Reliability

- Fully mobile setup, no external infrastructure required
- Logistics in Berlin exclusively via cargo bike
- Optional solar generator for energy self-sufficient events
- Experienced hosting and clearly structured timing
- Adaptable to various venues and formats

Safety & Organisation

- Clear briefing at the start
- Structured team and game moderation
- Adaptable to group size and event pace
- Advance coordination of spatial and timing parameters
- Technical and operational backup options available
