DoubleTree by Hilton Berlin Ku'damm

Naturally with passion

A retreat that is also right in the middle of things?
Modern in design, yet sustainable?
With the big picture in mind - and yet with attention to detail?
Yes, is that possible? Of course it is. But only with passion, of course.

The DoubleTree by Hilton Berlin Ku'damm passionately unites opposites. The oasis in the heart of Berlin, just a few steps away from the famous Kurfürstendamm, is surrounded by history, culture and shopping. The Hilton brand's first hotel in Berlin and the third in Germany is also „the most beautiful in Europe“, according to hotel manager Hannes Dreher. And he should know, as he knows the completely redesigned hotel, where Madonna, Tina Turner and Marlon Brando stayed before it was renovated (and still as a Steigenberger Hotel), like the back of his hand. The DoubleTree by Hilton Berlin Ku'damm is still Berlin's top address today, because service and promise, sustainability and goals go hand in hand here like in no other hotel.

Where does that lead? We will be happy to show you. After you, please.

On 800 m² (8600 ft²) of conference space for professional business events, you will be welcomed by a stylish lobby bar with elegant seating for electrifying conversations - under a photovoltaic system on the roof. In the restaurant with selected regional German cuisine in New Berlin style, we cook with more than water, namely with self-produced electricity. Our zero-waste approach is an essential ingredient in every dish - including Berlin's first organic breakfast buffet, which we are proud to serve you.

A hotel for a better future

Sustainability is in our DNA

We want to inspire you sustainably. Our commitment to the environment extends from the solar panels on the roof to the water pipes throughout the hotel.

The DoubleTree by Hilton implements the strictest sustainability guidelines. Among other things, we have implemented the measurement and reduction of carbon emissions in accordance with the HCMI industry standard. We use the latest technology to reduce energy consumption in air-conditioned rooms. We also have a program to increase the reuse of towels and sheets.

We hold regular meetings with employees to inform them about new environmentally friendly solutions, e.g. the use of environmentally friendly cleaning products. We measure and optimize water consumption, e.g. by reducing the flow in toilets, taps or showers.

We identify waste and separate it into at least three categories.

We minimize the use of disposable products or packaging and paper, e.g. in soap dispensers, air hand dryers or water refill stations. And we continue to work passionately every day to become even more sustainable.

Gym and Sauna

With passion for your well-being

Nothing comes from nothing, which is why our fitness area is open 24/7 and equipped with high-quality cardio and strength equipment from „Life Fitness“. To make sure you don't miss out on relaxation either, there are two saunas available - perfect for switching off and recharging your batteries after a long meeting or an even longer sightseeing tour.
