In September 2006, RADIALSYSTEM·V· was opened as a new creative space for the arts in Berlin. The name of the historical building, formerly a pumping station, indicates the direction the house seeks to follow as a cultural platform where ideas 'radiate' out in all directions and across boundaries. Located directly on the Spree River where the districts Mitte, Kreuzberg and Friedrichshain meet, the house combines a turn of the century industrial building with a modern glass addition. This balanced synthesis of old and new mirrors the founding principle of RADIALSYSTEM·V·: through the combination of apparently opposed concepts, something new is created that exceeds the sum of its parts and benefits both sides. This concept of dialogue is present in the architecture as well as in the artistic programmes and in the synthesis of economy and culture.

Already in heavy demand by the business, scientific, and political community as well as the film and television industry, RADIALSYSTEM·V· proves that the interaction between economy and culture can indeed be successful. With its large halls, light filled studios, sun deck, and Spree terrace with boat landing, this privately run arts center is an extraordinary venue for high caliber conferences, receptions, parties, as well as festive evening galas - right in the heart of Berlin.

Foyer

The visitor enters RADIALSYSTEM V through the transparent and bright foyer, central to which is a café bar. The foyer serves as the main entrance to both halls as well as it provides access to the upper levels of the building via a staircase and elevators.

Base area: 135 square meters
(ca. 1,453 square feet)

Dimensions: 32.67 m x 4.13 m
(including bar)

Access: The foyer is directly accessible from Holzmarktstraße via the main entrance.

Restrooms: Separate restrooms for men and women, as well as facilities for the disabled.

- › 07 Cube
- › 08 Ateliers
- › 09 Information
- › 10 Floor Plans

The main hall is the heart of RADIALSYSTEM V. Originally a machine hall, the room's magnificent industrial architecture was saved when the building was renovated. A special gem is the historical crane bridge, which is still in use. The main hall contains a grandstand for up to 356 people which can be dismantled for dinners or stand-up receptions. The hall is located on the ground floor of the building and is accessible via the foyer as well as the smaller hall. There are also large supply doors at the side of the hall for easy unloading of larger materials and equipment.

Base area:	578 square meters (ca. 6,221 square feet)
Dimensions:	31.56 m x 16.78 / 20.20 m (front / back area) (vorderer/hinterer Bereich)
Height:	10.89 m (9.58 m underneath the spreader bars)
Dimensions grandstand:	13 m (W) x 17.85 m (D); 14 rows with 21 places each
Dimensions supply doors:	3,42 m (B) x 3,56 m (H)
Access:	The main hall is located on the ground floor of the building and can be accessed directly from the street.
Capacity:	Standing room: 600-700 people
Seating capacity:	with grandstand: max. 450 people, without grandstand: max. 520 people Formal dinner seating (ten per round table): max. 330 people
Technical equipment:	See tech-rider, available on request
Special feature:	Historical crane bridge
Electricity:	Shockproof sockets, 16, 32 and 63 Ampère
Flooring:	Wooden floor, dark brown

Also located on the ground floor is the former boiler house of the pumping station. During the conversion of RADIALSYSTEM V in 2006, modern components, bare concrete walls and columns were added to supplement the historical elements of the hall. The bright hall's large arched windows face southwards, allowing a view of the Spree. The hall is directly connected to the Spree terrace via loading doors.

Base area:	394 square meters (4,240 square feet)
Dimensions:	13.50 m x 24.60 m Height: 6.98 m (7.77 m between the floor joists)
Dimensions loading doors:	3.22 m (W) x 3.60 m (H)
Access:	The hall is located on the ground floor of the building and can be accessed from the foyer and directly from the Spree terrace.
Seating capacity:	Standing room: max. 350 people Row seating: max. 300 people Formal dinner seating (ten per round table): max. 240 people
Technical equipment:	see tech-rider, available upon request
Electricity:	Shockproof sockets, 16 and 32 Ampère
Flooring:	Wooden floor, light coloured
Restrooms:	Located in the foyer

RADIALSYSTEM V includes two extremely attractive outdoor areas: the Spree terrace, which includes a boat landing, and the deck, an exclusive roofed terrace located on the third floor of the building. Both areas are suited for receptions, with the deck especially adequate for unpredictable weather conditions.

Not only ideal for events themselves, the two outdoor areas are often used in combination with the various rooms (for example the halls or the cube) to serve as an attractive smoking area.

Both areas are located on the south side of the building, and with a bit of luck it is possible to catch a spectacular sunset over the Spree River. The view extends from the Rotes Rathaus and the Alexanderplatz television tower in the west, across the sand covered banks of the Spree River and over to the Oberbaumbrücke in the East.

Both the Spree terrace and the deck are shielded from the street by the building and due to facing the river and facing south they have a relaxed, almost mediterranean atmosphere.

Terrace

Base area: ca. 450 square meters (ca. 4,843 square feet)
Dimensions: ca. 45 m x 10 m
Access: The terrace is located on the south side of RADIALSYSTEM V and is accessible via the foyer and the driveways. It is also accessible via the boat landing.
Seating capacity: Summer months on the Spree: 20 tables, 6 chairs each and removable branded sunshades. Stand up receptions: max. 400 people
Pier: 48 meters long. The pier is one of the longest of the city, and is approved for all common passenger vessels.
Electricity: Shockproof sockets, 16 and 32 Ampère
Flooring: Historical paving
Restrooms: Located in the foyer

Deck

Base area: ca. 350 square meters (ca. 3,767 square feet)
Dimensions: ca. 22 m x 16 m
Access: The deck is located between the second and third floor of the building and is accessible via two separate staircases as well as two elevators. Unfortunately, there is yet no access for the disabled.
Electricity: Shockproof sockets, 16 and 32 Ampère
Flooring: Terrace timber planks
Restrooms: Located in the foyer

- > 04 Hall
- > 05 Outdoor Areas
- > 06 Studios
- > 07 Cube
- > 08 Ateliers
- > 09 Information
- > 10 Floor Plans

The studios are located on the south side of the new addition to RADIALSYSTEM V. Studios B and C are on the fourth floor, Studio A is on the fifth floor. Studios B and C can be accessed separately, but are connected through doors.

Thanks to their glass fronts, all of the studios offer both day and night a spectacular view of the Spree and the city. Each studio has its own balcony. The fitted glass 'fins' protect the studio from direct sunlight. All of the studios are air-conditioned and can be darkened.

- > 10 Floor Plans

Base area: 394 square meters (ca. 4,240 square feet)
Height: 2.85 m (2.77 meters underneath the concrete girders)
Access: Studio A is located on the fifth floor of RADIALSYSTEM V. It is accessible via two staircases as well as two elevators.
Electricity: Shockproof sockets, 32 Ampère
Flooring: Wooden sprung floor covered with a black dance-carpet
Restrooms: Studio A includes two facilities with one WC and one shower each.

06.02 Studio A

Studio B

Base area: 196 square meters (ca. 2,109 square feet)
Height: 2.85 m (2.77 underneath the concrete girders)
Access: Studio B is located on the fourth floor of RADIALSYSTEM V. It is accessible via a staircase as well as an elevator.
Electricity: Shockproof sockets, 32 Ampère
Flooring: Wooden sprung floor covered with a black dance-carpet
Restrooms: Studio B includes one WC and one shower facility.

Studio C

Base area: 196 square meters (ca. 2,109 square feet)
Height: 2.85 m (2.77 underneath the concrete girders)
Access: Studio C is located on the fourth floor of RADIALSYSTEM V. It is accessible via a staircase as well as an elevator.
Electricity: Shockproof sockets, 32 Ampère
Flooring: Polished mastic asphalt (shiny black)
Restrooms: Studio C includes one WC and one shower facility.

The cube is a transparent structure made of glass and bare concrete. Through its second story gallery, the room has an unorthodox height which lends an extraordinarily spacious character.

The cube is perfect for events requiring a more intimate atmosphere, or as a lounge area connected to the deck.

Base area:	ca. 50 square meters (ca. 538 square feet)
Height:	6.37 m (front area)
Access:	The cube is located on the second floor and the third floor gallery area of RADIALSYSTEM V and is accessible via a staircase as well as an elevator.
Electricity:	Shockproof sockets
Restrooms:	The cube has a WC.

- > 09 Information
- > 10 Floor Plans

The first floor has three ateliers and two small rooms who can be turned into wardrobes or make-up rooms for example.

The rooms on the first floor are equally adequate as a space for production offices, conference rooms, staff catering, workshops etc.

Base area: ca. 230 square meters
(ca. 2, 75 square feet)

Access: The first floor is accessible via the main staircase and an elevator as well as a separate staircase.

Rooms: Atelier A (ca. 42 square meters)
Atelier B (ca. 36 square meters)
Atelier C (ca. 30 square meters)
Room 1 - 2 (ca. 13 square meters each)

Restrooms: Two WCs and one shower room with six open showers and two cabin-showers

Conditions / Prices

We do not rent the studios and halls according to a fixed price list. Instead, we will provide you with an individual offer tailored to fit your needs, including technology, catering or additional staff.

Staff

For your event we will provide you a personal supervisor to assist you before and on the day of your event. Your personal supervisor will be available to give you technical help during assembly and dismantling of equipment and, upon request, we can provide additional staff for service, technical assistance, security and event management and organization. You are also welcome to bring your own staff for your event.

Gastronomy / Catering

Gastronomy is an integral part of **RADIALSYSTEM V**. Apart from the café bar in the foyer we can also provide catering for your event, be it a simple coffee break or a full scale lunch buffet. We can provide an indivi-

dual offer upon request. For larger catering needs, we can recommend one of our gastro-nomic partners. **RADIALSYSTEM V** is not exclusively connected to a specific caterer.

Technology

RADIALSYSTEM V has an excellent inventory of light and sound technology available. Upon request we can provide an individual offer. We can also recommend providers of lighting and sound services with the choice of the provider is yours.

Wardrobe

Because of the flexible use of our rooms we have a supply of rolling coat racks. Depending on your individual needs, we can provide coat racks in the foyer, the hall and the studios.

Smoking

Smoking is not permitted in **RADIALSYSTEM V**. However, the balconies, the deck as well as the Spree terrace provide adequate, attractive and partially covered smoking areas on each level.
